

Watch Party Guidelines

To create a safe & excellent environment for everyone participating in Watch Parties, below are some helpful “rules” or guidelines that you can go over with the group before you get started.

- Be kind & welcoming to one another.
- Honor the start & end times that we have agreed to.
- Take care of the home that we are in & help clean up at the end, if possible.
- Silence cell phones, watches, or any other potential distractions during the viewing of service.
- No judgement or criticism. We all have different perspectives & opinions, so let’s try to approach any conversations with love & understanding.
- Communicate with your host if you have any concerns.
